

PIGS

Barnyard Pigs' Choice Pellets

Barnyard Pigs' Choice pellets are specifically designed as an economical ration for the smaller pig producer, or those with animals receiving other food stuffs in addition to Pigs' Choice.

Pigs' Choice is formulated to provide concentrated protein and energy in an economical, all-purpose feed.

FEEDING RECOMMENDATIONS

Feeding levels depend upon the growth requirement of the pigs and the amount of other foodstuffs available. Average intakes could be between 0.5kg and 1.5kg per day with higher levels for lactating sows.

INGREDIENTS

Selected from grains, grain by-products, animal proteins, plant proteins, animal fats, vegetable oils, minerals, amino acids and a specialised vitamin / mineral premix.

SPECIFICATIONS

Crude Protein (typical analysis)	14.5%
Fat	5% (max)
Fibre	7.5% (max)
Salt	0.7% (max)

POINTS TO NOTE

Please note: if a high specification complete feed is required for commercial pig production, then MainFeeds specially designed commercial pig feeds should be considered. (Please contact your nearest MainFeeds office for more details)

Please ensure that the pigs have access to fresh, clean drinking water at all times.
