

## PRODUCTS > LAYER HENS

# Free Range Wheat

Barnyard premium free range layer feed is designed for your backyard chicks and laying hens. It is a wholesome and nutritional feed formulated to meet the needs of chicks and laying hens throughout their life.

A high energy feed supplement for poultry

Provide other feed sources in addition to wheat for maximum productivity.

## FEEDING INSTRUCTIONS AND NUTRITIONAL INFORMATION

Our premium free range Barnyard range will provide you with the best feed for your chicks or layer hens. Barnyard premium free range Wheat is a whole grain product suitable for supplementing the diet of your laying hens. It is not a complete feed as protein and calcium is required for growth and for egg production.

Other feeds, such as Barnyard premium free range Muesli Mix and Barnyard Oyster Grit should be fed in addition to wheat to provide a balanced diet and improve growth rate or egg production.

Always have clean fresh water available at all times. Place the water in a separate container away from the dry feed to minimise spillage and dampness.
